Engineering SURVEY-2015

Business & Management Chronicle is presenting the most comprehensive **"All India Engineering Colleges Survey -2015"**. This survey is of extreme importance for the aspirants who seek complete information and do thorough research before taking admission in Engineering Colleges.

The survey findings are completely based on the data submitted by the respective colleges and data obtained from various sources on perceptual view. However, students are required to personally visit the institute & seek information regarding the institutes before taking admission. This is the 4th All India Engineering Colleges Survey being published by B &M Chronicle.

Methodology:

The survey was conducted by B&M Research Team in three phases in 15 states covering cities: Varanasi, Delhi, Gurgaon, Noida, Greater Noida, Chennai, Ahmedabad, Jaipur, Bhilai, Raipur, Bengaluru, Hyderabad, Pune, Dehradun, Lucknow, Chandigarh, Dhanbad, Bhopal, Patiala, Coimbatore, Mohali, Bhubaneshwar, Salem, Erode, Agra, Moradabad, Mathura, Mangalore, Bhalki, Udaipur, Gorakhpur, Ambala, Vadodara, Meerut & Nellore.

Factual Information Collection

Factual Information was collected in the month of April & May 2015 through designed questionnaire by the B&M Research Team which was sent to 740 Engineering Colleges present all over India. A dedicated web link was provided on the website www.chronicleindia.in so that the questionnaire can also be downloaded by the Engineering Colleges from the provided interface. Online advertisements were also published for the Engineering Colleges to participate in the survey. Responses were sought by several reminders, phone calls and emails.

Within the stipulated time, 72 colleges responded with their information, out of which 59 were considered to be used for ratings as 13 colleges either did not meet the eligibility criteria set by the Research Team viz institutes which are fully functional for more than 3 years or lack of complete information & the supporting documents were not send by the colleges. However, some of the prominent institutes like the IITs and NITs did not participate in our survey inspite of several reminders. They insisted us to take data from their websites but the data was insufficient for complete research, so they were not included in the survey.

Validation of Data Through Physical Survey

The B&M Research Team visited in a good number of participating institutes. The team took a perceptual view from the directors, faculty members, current students, academicians, aspiring students and recruiters. The data submitted by the institutes was validated thoroughly by the research team. Different parameters were critically analysed and perceptual rating was given to the participating institutes by the research team on the findings of physical survey.

Calculation of Score & Final Rating

Finally, in the third phase, an exhaustive scrutiny of gathered information was conducted with the help of rationalized research tools to arrive at the parameter as well as overall rankings.

While scrutinizing the data, important aspects like quality of students, curriculum, intellectual capital of faculty, infrastructure (Library, recreational rooms, canteens, entertainment, hostels, faculty, accommodation and wellness), placement record and industry interaction were taken into consideration. Consequently, and logically too, post this exercise, the marks were then calculated using the weightage decided by the specialist panel for all parameters and sub-parameters.

As per the score allotted to each institute, the colleges were categorized by giving different ratings- A+++, A++, A+, A, B++ and B+. The placement data was analysed critically. This year, in our survey we have presented the data of various companies with the average salary offered to a B.Tech student to give an idea about the placement trends. Also the average package offered by different streams of companies is represented graphically.

Samsumg Engineering		DELOITTE	5.50
(International)	13.00	Zomato Media Private Limited	5.48
VM Ware	13.00	Zycus	5.35
Indian Software	12.00	Adobe System India Pvt. Ltd.	5.30
Microsoft	12.00	Mahindra & Mahindra Ltd.	5.30
Morgan Stanley	11.30	Sonus Network	5.25
BPCL	10.50	L & T ECC	5.20
Google	10.00	NBC Bearing	5.20
Indian Navy	10.00	Evaluserve	5.15
Nvidia	9.90	Practo Technologies	5.10
Synopsys	9.81	Godrej	5.00
Symentec	9.30	ISMT Ltd	5.00
Indian Navy	8.50	Ford	5.00
SHELL INDIA	8.50	Siemens	5.00
Balwer Lawne	8.14	L&T CONSTRUCTION	5.00
GSFC	8.00	CB&I INDIA PVT. LTD.	4.75
KRIBHCO	8.00	ISWP	4.57
Samsung	8.00	BNY Mellon	4.50
Indian Navy	7.71	TECHNOLOGY UNCORKED LLP	4.45
MEAPTASHI	7.50	Network 18	4.25
ORACLE - MySQL	7.50	Honda Motors	4.20
Samsung	7.20	IBM	4.10
		Monster India	4.00

UNIQUE COURSES FOR NEW HORIZON

ENGINEERING COURSES	ABOUT THE COURSE	TOP RECRUITERS
Aeronautical Engineering	As an aeronautical engineer, you will deal with the development of new technology in aviation, space exploration and defence systems	HAL, NAL, Civil Aviation Department, DRDO, ISRO, Air India, Jet Airways, Spicejet
Agricultural & Food Engineering	The activities in Agriculture & food engineering include wide array of activities such as food processing, machinery, packaging, ingredient manufacturing, instrumentation & control	Agro Tech Food, ITC Limited, Pepsi Co India, Amul, Parle, Perfetti India Ltd, Britannia India Ltd., Nestle India Pvt Ltd, Cadbury India Ltd
Architecture Engineering	Architecture, the science of building, is the visualization of building blocks. It is the area of study, which deals with the designing, and planning of buildings and structures and the spaces between them.	Edifice Architects Pvt. Ltd., DLF, Real Estate Companies
Automation and Robotics	Automation and Robotics is one of the top most. career choices made by students in India. mainly focuses on the design of modern Robotic systems	Kuka Robotics,Precision Automation Robotics This field is India Limited (PARI), Defence Research & Development Organisation (DRDO)
Automotive Engineering	Automotive engineering is the branch of engineering which deals with the study of how to design, manufacture and operate automobiles like buses, trucks, cars etc. and also their respective engineering subsystems. An automotive engineer's main duty is to design, test and develop vehicles and components from concept stage through to production stage.	Maruti Suzuki, Ashok Leyland, TATA, Apollo Tyres, Bajaj, Hyundai, Toyota, Honda, Caterpillar, Escorts, Yamaha, Mahindra & Mahindra
Bio-Medical & Instrumentation Eng.	Bio-Medical and Instrumentation Engineering is the special branch of engineering which deals with the application of the engineering principles and design concepts to medicine and biology.	Larsen & Toubro, BPL, Wipro and Siemens
Biotechnology & Biochemical Eng.	While Biotechnology is the discipline which combines Biology and technology, Biochemical Engineering mainly deals with the design and construction of unit processes that involve biological organisms or molecules.	Hindustan Lever Ltd, Thapar Group, Hindustan Antibiotics, Dr. Reddy's Laboratory, Dabur Pharmaceuticals
Carpet and Textile Technology	Carpet and Textile Engineering is a branch of engineering which deals with the scientific techniques with manufacturing and yearning of different forms of textiles in the factory. The program studies the chemical and physical principles which are utilized for the analysis of the behavior of the polymers which are used for textile production.	Siyaram, Raymonds Fabric, Anant Spinning Mills, Carpet International, Jayashree Textiles
Civil and Structural Engineering	Structural Engineering is a specialization of Civil Engineering but it can be studied as a. separate discipline as well. It deals with the analysis and design of structures such as buildings, bridges, towers, flyovers, tunnels, off	Bharat Heavy Electronics Ltd, Jaypee (India) Capital Services Ltd, Jindal Steel and Power Ltd, Reliance Infrastructure, The Stellar Group of Companies

	shore structures like oil and gas fields in the sea, aerostructure and other structures that support or resists load. The main task of the structural engineers is to design buildings and non building structures or machinery, medical equipments, vehicles etc.	
Chemical Ceramic Technology	Ceramic technology is the technology of creating objects from inorganic and non-metal objects. This is a niche branch of chemical engineering which deals with the development and manufacturing of ceramic and the process of combining it with other chemicals in order to create ceramic and allied products.	Saint Gobain Glass Ltd., Tata Refractories Ltd, Grindwell Norton, Essar Steel Ltd., MECON, CUMI
Civil Environmental Engineering	The Civil Environmental Engineering is the discipline which aims to improve the natural environment to provide healthy water, air and land for human habitation. Civil engineering focuses on planning, designing and supervising construction of building, roads and several other forms of infrastructure.	MACTEC, AECOM, SPML Infra Ltd.
Dairy Technology	Dairy Technology is a component of food technology and processing industry. B.Tech course in Dairy Technology equips with techniques related to processing of various milk products.	Mother Dairy, Metro Dairy, Amul, ITC (Food Division), Nestle, Heinz
Disaster management	The career in the field of disaster management is immensely lucrative as there is a great demand of dedicated professionals who exert their abilities in this field. In India the scope of this discipline	Williams lea, Max Health Care
Electronics and Media Technology	Electronics and Media Technology is a relatively new branch of engineering and very few institutes offer this course. This course deals with the technologies used by audio and visual media in order to integrate engineering and media	Reliance Media Works, Zion TV, Divine TV
Electronics and Power Engineering	Electronics and Power Engineering is a branch of Electrical Engineering which deals with generation, transmission and distribution of electric power and electrical devices connected to such systems including generators, motors and transformers	Bharat Electronics Limited, Philips, Reliance Energy
Fashion and Apparel Engineering	Fashion and Apparel Engineering is a growing area of study for those who want to pursue a career in fashion. The program aims to trained professionals who will have the right expertise to guide the fashion industry by using the high technology and better designing skills consistency in product quality, price and services, which have a great bearing on importers as well as home markets.	Shoppers Stop, Lifestyle, Indus Fila, Levis, Tommy Hilfiger
Genetic Engineering	Genetic Engineering, also known as genetic modification, is the process through which an. organism's genome is manipulated through biotechnology. In this process new DNA is inserted in the host genome by first isolating &	The National Institute of Immunology, Bio chemical Engineering Research and Process Development Centre, The Centre for DNA Fingerprint and Diagnostics

	copying the genetic material of interest using molecular cloning methods to generate a DNA sequence, or by synthesizing the DNA, and then inserting this construct into the host organism	
Geosciences and Remote Sensing	Geo science or earth science is the science related to the planet Earth. The discipline includes the detailed study of atmosphere, hydrosphere, oceans and biosphere, as well as the solid earth	Google, TCS, Reliance Industries, Reliance Energy, Geofiny Technologies
Industrial & Production Engineering	A typical under-graduate course on Industrial & Production engineering emphasises on manufacturing and improvement of productivity	BHEL, GAIL, EICHER VOLVO, Mahindra and Mahindra, John Deree, TATA Motors
Industrial Design	Industrial design trains one to blend of applied art and applied science with the motive to improve a product in terms of its visual aspects and also usability in terms of one's requirements. An industrial designer studies the sensori-emotional values of sentiment and taste to develop a product.	Design firms, Mahindra Engineering, Cognizant Ltd.
Industrial Engineering	Industrial engineers are concerned with planning, measuring and controlling all activities within the organization, besides designing the production process for a product. It deals with the creation and management of systems that integrate people, materials, equipment and energy in productive ways. Industrial Engineering is related to understanding, development and implementation of systems involving human being and other resources	BSNL, TATA, Reliance Industries Ltd, Infosys, Wipro, TCS, Maruti Udyog, ONGC, DRDO
Instrumentation Technology	Instrumentation Technology is an inter-disciplinary branch of engineering. With the advancement of technology, emphasis is more on development of new & intelligent sensors, smart transducers, MEMS Technology, Blue tooth Technology.	GE, Texas Instruments, National Instruments; Larsen & Tourbo, Robert Bosch, Larsen & Tourbo
Leather Technology	Leather technology deals with synthesis, production and refining of leather to make commercial goods like footwear, clothing, gloves belts, wallets, luggage, bags, upholstery including automobiles and sports goods. It is a niche branch of engineering which deals with leather and its by products.	Balmer Lawrie & Co, India Polyfibres, Indian Rayon & Industries, Jain Tanners, Mirza Tan ners, Bata India Ltd. and PolyPlex Corporation.
Materials Science and Technology	Material Science is an interdisciplinary field. applying the properties of matter to various areas of science and engineering. This scientific field investigates the relationship between the structure of materials at atomic or molecular scales and their macroscopic propertieS	Tata Steel, Ashok Leyland, Mahindra & Mahindra, NTPC
Mechatronics Engineering	Mechatronics is a design process & Mechatronics Engineering multidisciplinary engineering branch which integrates the classical fields of mechanical, electrical engineering, mathematics, and computer science/information technology. Mechatronics is centered on mechanics, electronics, computing,	Robotics, Aerospace, Defence, automotive and Manufacturing.

	control engineering, molecular engineering (from nanochemistry and biology) and optical engineering which, combined, make possible the generation of simpler, more economical, reliable and versatile systems.	
Naval Architecture & Marine Engn.	Arine engineers and naval architects design and supervise the construction of everything from aircraft carriers to submarines and from sailboats to tankers. They are involved in the design, construction, and maintenance of ships, boats, & related equipment. Also they apply knowledge from a range of fields to the entire design and production process of all water vehicles.	Mazagaon Docks Limited, government jobs in the Shipping Corporation of India and in shipping companies such as Anglo Eastern Shipping, Mobil Shipping Co, Orinoco Marine Consultancy and Chevron Manning Services.
Mineral Engineering	Mineral engineers are inevitably the show stealers. Starting from soap and toothpaste to construction of phones, computers, glass, planes, trains, automobiles to making cooking utensils, they are needed in all these industries.	Aurizon Mines Ltd, Alamos Gold Inc., BCI Engineers & Scientists Inc., Carter Stone & Company, Coeur Rochester, Crystallex Inter national Corporation, Eldorado Gold Corpora tion.
Water Management	Water management or water resource management is the activity of planning, developing, distributing & managing maximum usage of water resources. Water management is gaining gradual importance owing to the rising demand of water across the globe	Eureka Forbes, Tata Industries, Birla Group of Industries, ITC India Ltd.
